Re: *Ex Parte* Notice: *Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks* – IB Docket No. 13-213

Dear Ms. Dortch:

On August 4, 2016, Tim Taylor, Vice President of Finance, Business Operations & Strategy for Globalstar, Inc. (“Globalstar”), John Dooley of Jarvinian, and I met with Edward “Smitty” Smith, Legal Advisor to Chairman Tom Wheeler; Brian Regan, Matthew Pearl, Blaise Scinto, Stephen Buenzow, Paul Malmud, Roger Noel, and Linda Chang of the Wireless Telecommunications Bureau; and José J. Albuquerque of the International Bureau, regarding the Commission’s proposed rules in the above-captioned proceeding. Globalstar’s representatives urged that the Commission expeditiously adopt rules to authorize an innovative broadband service, Terrestrial Low Power Service (“TLPS”) and discussed a potential framework to permit third parties to obtain opportunistic use of Channel 14 where Globalstar has not deployed TLPS.

The Commission’s proposed rules in this proceeding would serve the public interest by adding 22 megahertz to the nation’s broadband spectrum inventory and alleviating congestion in the 2.4 GHz ISM band. Any regulatory framework for TLPS should encourage investment, innovation, competition, and efficient use of scarce spectrum.

Pursuant to section 1.1206(b)(2) of the Commission’s rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Respectfully submitted,

/s/ Regina M. Keeney
Regina M. Keeney

Ms. Marlene Dortch
